

Since Albert is focused so much on Nola, his health is deteriorating.

Albert tracks Nola's daily activities on his own

While Albert is cooking dinner, Nola goes outside for a walk without telling Albert.

Nola doesn't remember where she is and gets lost. Albert doesn't realize until 30 mins later.

Albert is extremely worried and has to call Marge for help.

Marge has many responsibilities and has to drop them all to find her mum.

## Problems

- Albert's Health
- Nola's Health
- Inability to monitor Nola

They both go looking for Nola and eventually find her distressed and at the park crying.
